

## Your car can be a source of Stormwater Pollution

### What you can do:

- 1  Don't work on your car in a place where oil and grease could be washed into street gutters.
- 2  Use the minimum amount of detergent when washing your car outside.
- 3  Take your car to the car wash instead of washing it in the driveway.
- 4  Maintain your car so that fuel is burnt cleanly.
- 5  Make sure there are no leaking fluids coming from your car
- 6  Minimize tracking dirt and other solids onto roadways from construction sites, parking lots or dirt roads.
- 7  Carpool as much as possible
